OUR 909th ISSUE

## **AVA Convention 2023** – Rich Mallicote, Convention Chairman

Plan now for the 2023 AVA Convention, to be held August 3-6 in Cheyenne, Wyoming. For anyone planning to fly, I would recommend flying to Denver and renting a car. Cheyenne is only 1-1/2 hours by car from the Denver airport through a beautiful area of northeast Colorado.

We will begin the convention with the Executive Board meeting on Thursday afternoon. I am currently planning on holding the auction on Friday morning, followed by a visit to the Cheyenne Depot and Depot Museum (Cheyenne railroad history) after lunch and a narrative tour around Cheyenne in the Cheyenne Street Railway Trolley on Friday afternoon. This will give attendees the opportunity to find out what they would like to go back and see on Saturday, if they do not want to participate in boursing. Boursing would be held on Saturday, with the convention dinner on Saturday night and the Business Meeting on Sunday morning.

Our host hotel will be the Little America Hotel & Resort located at 2800 West Lincolnway in Cheyenne. Details on reserving your room and sending in your convention fee will be in the April Fare Box.

## **Just a Reminder – Convention Auction Items Needed!**

We are still accepting submissions for the Convention Auction. If you have any Transportation Memorabilia, Car Wash Tokens, Parking Tokens or Regular Transit Tokens and you would like to sell at auction, please e-mail me ([gobearsdad@yahoo.com](mailto:gobearsdad@yahoo.com)) or phone (916) 434-0472 (we screen calls).

I'm trying to avoid duplications. We will have to stop accepting on Saturday, April 1 so that the listings can be completed for publication in the May issue.

Thanks,

Chris Donovan

## Cheyenne AVA Convention - You are invited!

From Chris Donovan, AVA President

I was talking to one of the Board members about the upcoming Convention. One of the topics that came up was low attendance. He told me he had a conversation with a fairly new member and had asked him, "Why don't you come to the Convention?".

The response was, "because I never have been invited". Well, CONSIDER YOURSELF INVITED.

All members (and their spouses/ significant others) are more than welcome. The locations rotate between Eastern, Midwestern and Western sites. For many years, Joel Reznick served as the Convention Chair. Since the majority of our membership is scattered across the USA, he tried to choose varied locations so that it would be easier for persons in the vicinity to attend. Current Chair, Rich Mallicote, has continued this tradition and has been striving to have the Convention in states where none have been previously held.

So why come ?? 3 reasons: Tokens, People, Location.

1) Tokens. Everyone wants to expand/ further complete their collections. There is a full day devoted to boursing. Newer members can find all manner of less expensive tokens. One can also sell his/ hers duplicates. A number of folks take their proceeds and purchase other more expensive tokens. There is the Saturday auction with around 400 lots up for bid. Those in attendance have an advantage. They can possibly outbid those who are bidding by mail. Sometimes, bargains can be had on lots where there are few mail bids.

2) People. Connect a face to a name in The Fare Box or someone you have dealt with by mail. You can socialize. Everyone is friendly and helpful. Contacts can be shared. Networks can be formed. There are all sorts of stories. Some recall how they acquired a particular token. Others recount the history of a transit company or conveyance. Some tell of personal quests/ finds. Still others tell of places they have encountered while trekking to/ from the Convention. Some members attend every year to catch up with friends they made at previous Conventions. Others come only occasionally- when the Convention occurs in their part of the country.

3) Location. Many folks plan visits to destinations along their route to/ from the Convention. They may stop at National Parks/ Monuments, attend baseball games at different stadiums, go to zoos and museums or visit friends/ relatives. This year Cheyenne is holding its annual Frontier Days on July 21 thru 30. (It's the week before our Convention.) There's lots of rodeo action and other events.

Details for this year's gathering are contained in another part of this issue with more to come in April.

The AVA has no members who reside in the state of Wyoming. However, there are folks who live nearby in Washington, Oregon, Idaho and Colorado. We have high hopes of seeing you in Cheyenne.

Of course we would like to see folks from all over the country.

## **EVENTS WHERE EXOMUNIA ITEMS ARE AVAILABLE** Bill Brenner

Exonomia items are non-legal tender Numismatic items that are studied and collected. While there are events held exclusively for Exonomia items they are often also found at events labeled Numismatic events. This list is meant to be inclusive of any upcoming event where significant selling, buying or trading of Exonomia items takes place. The "Early Bird" hours, daily public bourse hours, educational forums and auction information is usually found on either the Website indicated or contact information on the list. Show dates are subject to change, so verify before attending. NOTE: AVA members who take part in Exonomia events not listed are encouraged to add those events to the list.

### **East Cleveland Railroad Co – Vulcanite Fare Token – Ohio 175-B – By C Judge**

The EAST CLEVELAND RAILWAY CO. was established on 6 August 1860, when company president Harry Stevens broke ground at Euclid and Willson (E. 55th St.) avenues. By 3 Sept. 3.39 miles of single track had been laid from Willson through Prospect to Bank (W. 6th) St., and horsecars began carrying passengers on the iron-strapped wooden rails. Fare was 5 cents. The franchise was expanded and several other routes were added. By the late 1880s, the large number of competing railway lines and the expense of electrification made operating conditions impractical and inefficient, and on 15 May 1893 the city council authorized the consolidation of the East Cleveland, Broadway & Newburgh, Brooklyn, and South Side traction companies into the Cleveland Electric Railway Co.

The East Cleveland Railroad Co. issued two different vulcanite (hard rubber) fare tokens. They were both 23mm in diameter but produced in different colors, either black or brown. The black example shown below is listed as Ohio 175-B in the Atwood-Coffee transit catalog. Thick and thin varieties of B are known to exist indicating several production runs. The black tokens are not common and were given a \$100.00 valuation. The brown 175-C are scarcer and given a valuation of \$125.00.

This photo shows one of the open summer trolleys used by East Cleveland after electrification in 1888.

## U.S. PARKING TOKENS NEWS AND VIEWS Bill Brenner

This article's goal is to provide Parking Token Collectors a list of what tokens can be collected. It supports a collector utilizing both a typical book catalog and [www.tokencatalog.com](http://www.tokencatalog.com). Members are encouraged to submit new tokens with image (BMP or JPEG files) of obverse and reverse, vital information (composition, diameter, etc.) state and city where used, operator and any history of token.

## **Worcester Mass Street Railway – Vulcanite 5 Cent Fare Token - MA970B**

By Curtis Judge # 1566

The Worcester Street Railway Co. was chartered in 1901 and started full operations on 32 miles of track in 1903. In 1906, it was purchased by Cornelius Vanderbilt's New Haven railway and over the years combined with other surface railways in Springfield and Boston. Its network included urban lines that ran throughout the city, as well as a network that connected Worcester to other county cities and towns such as Fitchburg. The company built a steam-powered electrical plant in 1911 on Providence Road in Millbury to power its system. At its height in 1916, the Worcester S. R. Co. was the largest in the state with 429 cars, more than 300 miles of track and recorded 72.7 million individual passenger fares. The late 1920-30's brought financial problems and Worcester S. R. Co. streetcars operated until 1945 when they were replaced by busses.

The company issued four different tokens during its life. The example shown below is listed in the Atwood-Coffee transit catalog as Mass 970-B. It is 23mm being produced in a brownish red vulcanite hard rubber material. Mintage quantity is unknown but the pieces are not rare. Catalog valuation is given as \$50.00 with very nice condition pieces often selling at a premium. Being hard rubber, the tokens wore more rapidly from usage than metal ones. This very nice example is currently – Feb 2023 – for sale on eBay.

This photo shows the Worcester main offices and one of the maintenance shops. Administrative offices occupied the top two floors with maintenance areas below.

This photo shows one of the streetcars on Hamilton Street in downtown Worcester.

### Discussion

Fayetteville AR 315 B has the same inscription as 315 A but is brass rather than aluminum and is larger than 315 A. James L. Bozarth was born in 1863 and died in 1906.

The Freeport IL and Coralville IA carousels issued new tokens in their annual series.

The Victory Bus Line tokens from Kankakee IL have had the word "Line" listed incorrectly in all A-C editions going back to at least A-C 4.

### **MARCH 2023 SUPPLEMENT TO THE ATWOOD - COFFEE CATALOGUE (Cont'd)**

Lansing MI 560 AH differs from 450 AF in that it has no mint mark and is 2 mm larger. 560 AH is used for specialized transportation services. 560 AI is used for standard adult fares.

The Elm Creek Stables token is being offered on eBay. The seller has 4 available for \$5.99 plus \$4.00 shipping. Dayton is a suburb northwest of Minneapolis. Elm Creek is a 5,300 acre park with trails, a picnic area, and a nature center.

### New Issue Service for March Farebox 2023

I am finishing up the 2023-01 mailing at this time and should have it the mail by Monday March 6. It will include eight tokens for most members but the top few will get two or in one case three additional tokens. These tokens came mostly from St. Joseph, MI; but one each from Sioux Falls, SD; Albany, OR; and Salem OR.

One of the best ways NIS has for finding new tokens is the AVA members who, in their travels, come across a new token and let us know they exist. If you find a new token in your travels, whether you are NIS member or not, please let Joel Bernstein or me know. We do pursue trying to get them for the NIS members and get them included in the catalogue.

NIS is accepting new members. If you are interested in joining and getting the new tokens we are finding, please contact me at: Fred Sader, AVA NIS Manager, 830 Cooper Drive, Charlotte, NC 28210-2932

### MEMBERSHIP APPLICATION

Recently, I had an item on eBay and talked to the buyer. He mentioned that he had an AVA Membership Application for a year and he never mailed it in. The reason he did not mail it in was he did not feel he had enough money to be one of our members. He thought all our members collected every token in the catalog and he was not that rich. As most of us know, the majority of members do not collect everything. Some collect one city only. Others collect 16mm, zinc, pewter, certain state or states, etc. Attached is an application. Let collectors know for the low cost, this is a great way to add to their collection, no matter what they collect. Please print some copies, add your name and hand them out at showsclub meetings, etc.. - Bob Schneider (757) 713-0786
